

## ES PROMOTIONS RISK ASSESSMENT

Risk Assessment of: **Cactus Hoopla**

 Risk	 Existing Controls	Likelihood 1 - 5	Severity 1 – 5	Risk Score L x S	 Further Action to Take
Over Enthusiastic Participants	If the game is booked without an operator, ES Promotions advises that the client provide their own responsible adult to supervise the game. Children should not be left to use this equipment unsupervised.	2	1	2	With prior notice of large numbers attending the event additional trained operators can be supplied at an extra fee.
Unruly Behaviour	The operator’s decision is final, refusal to abide by the operators guidance will result in play refusal & in extreme circumstances closure of the unit.	1	2	2	Please enforce this rule with your own supervisor if an ES Promotions operator isn’t attending the event.
Equipment falling over	The interlocking cactus are set up independently, the cross section base should support itself.	2	1	2	In extreme conditions, if outside it may be advisable to pack unit down or take inside to prevent falling over.
Injury from thrown hoops	The game is set up in a safe area away from other guests, players should not collect hoops until last player has finished throwing.	2	1	2	Please enforce this rule with your own supervisor if an ES Promotions operator isn’t attending the event.

L=Likelihood S=Severity L X S = Risk Score with 1 = Lowest Risk and 25 = Highest

Risk and likelihood are worked out using numbers 1-5. These are then multiplied to give the risk score. We recommend that clients undertake their own risk assessment to suit individual needs.

We strive to have no risk score over 10 and anything over 20 would result in ES Promotions not running the kit.
