

ES PROMOTIONS RISK ASSESSMENT

Risk Assessment of: **Limbo Pole**

 Risk	 Existing Controls	Likelihood 1 - 5	Severity 1 – 5	Risk Score L x S	 Further Action to Take
Over Enthusiastic Participants	If the game is booked without an operator, ES Promotions advises that the client provide their own responsible adult to supervise the game and ensure the controls listed in this assessment. Children should not be left to use this equipment unsupervised.	2	1	2	With prior notice of large numbers attending the event additional trained operators will be supplied.
Unruly Behaviour	The operator’s decision is final, refusal to abide by the operators guidance will result in ride refusal& in extreme circumstances closure of the unit.	1	2	2	Please enforce this rule with your own supervisor if an ES Promotions operator isn’t attending the event.
Danger of unnecessary Injury	Ensure that no one uses the equipment who suffers from neck or back problems, heart complaints, is feeling unwell, suffering effects of alcohol of drugs or pregnant.	1	5	5	Players with the listed conditions who still wish to play <u>do so at their own risk</u> . However the operator has the right to refuse service to anyone they deem as a safety threat.
Injury from falling	Players should not to over exert themselves and only attempt heights they feel they can achieve.	3	1	3	Due to the nature of this game, falling may sometimes be unavoidable, we ask that only fit players take part, e.g. no person with heart, neck or back conditions or pregnant women.
Equipment falling over.	The uprights should be solid, with the cross member, a light weight prop not fixed too heavily against it – it should fall off with minimal pressure.	2	1	2	The cross pole will be lightweight and balanced on it should fall off quite easily without any damage or injury. Next player can then replace it for their go.

L=Likelihood S=Severity L X S = Risk Score with 1 = Lowest Risk and 25 = Highest

Risk and likelihood are worked out using numbers 1-5. These are then multiplied to give the risk score. We recommend that clients undertake their own risk assessment to suit individual needs.

We strive to have no risk score over 10 and anything over 20 would result in ES Promotions not running the kit.
